PLEASE NOTE: Customers should always obtain the actual color selections card or samples before specifying as computer monitors and color printers vary in their ability to display color.

SCOPE

Panelfold's **MemoryAction®**, **Dual-Wall™** vinyl hinges are available in ten solid colors designed to blend or contrast with the selected panel surfaces of Scale®, Signature® and Sonicwal® folding doors and accordion partitions.

STANDARD PANEL SURFACE / HINGE COMBINATIONS

Unless you specify otherwise, the panel surfaces shown in the chart below will be matched with the vinyl profile colors shown. You may, however, select any of the ten profile colors shown to combine with any surface color for no additional cost.

Startex™	Hinge	Hightex™	Hinge	Woodtex®	Hinge
White Cream Bisque London White	White Swan Lambs Wool Lambs Wool Gray Sand	Coffee Cream White Rice Beach Stone	Gray Sand White Swan Gray Sand Silver Cloud	Wheatwood™ Honeywood™ Canyonwood™ Sablewood™ Ebony Ash Glacierwood™ Silkwood™ Sorrelwood™	Sandstone Sandstone Dark Brown Dark Brown Ebony Gray Sand Sandstone Clove

		Brushed Aluminum Brushed Pewter	Dove Gray Dove Gray		

OTHER PANEL SURFACE / HINGE COMBINATIONS

For orders that specify panel surfaces other than those shown in the chart above, such as Woventex[®] fabric, Tek-Wall[®] fabric, Ribtex[®] carpet, high pressure plastic laminates, unfinished veneer or custom finishes on veneer, you must specify the vinyl hinge color desired.

DESIGN BENEFITS

The unique design of Panelfold's **Memory Action** hinges allows panels to open and close evenly, avoiding the need for unsightly top and bottom metal hinges. The Dual-Wall design provides an attractive appearance, solid support and strength to the door or partition. The vinyl profiles are securely locked into the panel edges, keeping the panels perfectly aligned, protecting the panel edges from marring scrapes and blows, and sealing out unwanted transmission of sound, light and air.

TECHNICAL DATA

Flame resistant and colorfast, these vinyl profiles can be easily cleaned with a damp sponge or cloth. Flex tested at Massachusetts Institute of Technology for 950,000 cycles, these hinges showed no sign of wear or deterioration.
